

Before the  
**FEDERAL COMMUNICATIONS COMMISSION**  
Washington, D.C. 20554

In the Matter of	)	
	)	Docket No. MB _____
Improvements to the Low Power FM	)	RM-11749
(LPFM) Radio Service	)	

To: Marlene Dortch, Secretary  
Federal Communications Commission  
Attention: Media Bureau

**COMMENTS IN SUPPORT**

SSR Communications, Inc. ("SSR") hereby submits its Comments in support of the above-captioned proceeding. SSR believes that, along with RM-11727 (Creation of a FM Class C4 radio allocation and Amendments to Section 73.215), RecNet's 'LP250' proposal should be considered by the Commission as part of a broader Technical Streamlining order in the near future. SSR has consulted for many LPFM facilities since the creation of the service and recognizes the potential benefit of a 250-Watt authorization to these licensees. Small and micro-broadcasters should be able to enjoy the proposed improvements in both RM-11727 and RM-11749, which do not impact the integrity of the FM service as a whole.

Respectfully submitted,

---
